Number of licenses

Number of simultaneous sessions

The number of purchased licenses defines the number of simultaneous sessions.

### Example

Your company purchases 3 licenses.

All your employees may install and use ISL Online software...

...but only 3 of them can host a remote desktop session or an online meeting at the SAME time.\*

Multi session available - start unlimited simultaneous sessions from the SAME computer by using only one license.

*\*Live chat is not limited by the number of licenses. When hosting an online meeting each license allows you to invite 10 participants.*
